PROFESSIONAL SUMMARY

I'm a third-year BTech student in Information Technology with hands-on experience in full-stack development. Over time, I've found myself drawn to product management, where I can blend my technical skills with my interest in creating meaningful products. I enjoy the process of building solutions, solving problems, and learning new things along the way. I'm looking to apply my knowledge in roles that allow me to contribute to both tech development and the overall product journey.

EDUCATION

2022-2026

Guru Gobind Singh Indraprastha University

B. Tech in Information Technology

COURSEWORK

Courses: - Data Structures and Algorithms (DSA), C++, C, Java, Database Management Systems (DBMS), Software Design, Object-Oriented Programming (OOPS), Operating Systems (OS), Computer Networks (CN)

SKILLS

Languages: C/C++, Java, JavaScript, HTML/CSS, MySQL

Tools: Git/GitHub, VS Code, Figma, Postman, Vite, Excel

Backend Technologies: NodeJS, PHP, RESTful API, EJS

Frameworks: React, Bootstrap, Tailwind, GSAP, Express.js, jQuery

Soft Skills : Decision Making, Leadership, Team Work, Communication

PROJECTS

MedAccess [GitHub Link](#) / *JavaScript, MySQL, NodeJS, EJS, ExpressJS*

Oct 2024

- Developed a full-stack hospital management website with HTML, CSS, and JavaScript for the front end, Node.js and Express.js for the backend, and MySQL for the database.
- Integrated user authentication, appointment booking, enquiry handling, demonstrating proficiency in front-end, back-end, and database management.

VisionFlow [GitHub Link](#) / *ReactJS, TailwindCSS, FullCalendarAPI, Motivation NPM Package*

Dec 2024

- Developed a productivity platform built with ReactJS and TailwindCSS for a dynamic and responsive interface. Integrated FullCalendarAPI for real-time event management and used the Motivation NPM package to provide daily motivational quotes.
- Utilized local storage for data persistence, allowing users to manage their tasks and events seamlessly without needing a backend, ensuring a smooth and efficient user experience.

DuetLingo [GitHub Link](#) / *Manifest V3, Javascript, Google Translate API*

Jan 2024

- Developed a Chrome extension, enabling instant language translation on any webpage using JavaScript for functionality and Google Translate's API for translations.
- Integrated features such as user-configurable source and target languages, persistent storage using Chrome's storage API, and real-time text replacement, showcasing expertise in browser extension development, API integration, and seamless user experience design.

ACHIEVEMENTS

- General Secretary of the Institution's Innovation Council (IIC) at GTBIT, GGSIPU
- Participated in GirlScript Summer Of Code (GSSOC) 2024 Extended
- Upholding a CGPA of 8.64 to date, reflecting consistent academic excellence
- Visited Network Bulls, Asia's largest Cisco Training Labs, gaining hands-on exposure to advanced networking technologies
